

I:Emedics: Achieving success in the medical industry with SAP Business One

I:Emedics Pte Ltd is a medical device distributor based in Singapore, established in 2005 with a mission to make a difference in people's lives by providing innovative medical products that improve patient outcomes. I:Emedics works with leading manufacturers worldwide to bring the latest medical technology to healthcare professionals in Singapore.

"We selected Inecom as our SAP partner due to their comprehensive solution for the medical industry. We were also impressed with the industry expertise and professional service from the Inecom team."

Before: Lack of advanced functionality in their previous system

- There was a lack of support for customer stock reservation, which is a critical aspect of their business.
- Lack of comprehensive document alteration features which increased the risk of data inaccuracies.

Indra Daviet, Regulatory & Compliance Manager,
I:Emedics Pte Ltd

Why SAP and Inecom

- SAP Business One is a reputable product and offered them long-term assurance and scalability.
- Inecom was selected as I:Emedics's SAP Business One partner as they were impressed with Inecom's comprehensive solutions for the medical industry, as well as the industry expertise and professional service from the Inecom team.
